INTRA-AGENCY MEMORANDUM

KENTUCKY PUBLIC SERVICE COMMISSION

TO: File: Case No. 2008-00074

FROM: J. R. Goff, Staff Attorney 

DATE: April 10, 2008

RE: Hardin County Water District No. 1
Transfer Ownership
City of Radcliff Sanitary Sewer System and Assumption of Debt

On April 8, 2008, a telephone conference was held with Commission Staff and the parties in this matter. Those participating in the conference are listed the attached sheet.

Hardin County Water District No. 1 ("Hardin District") expressed two concerns regarding its filing and the transfer: (1) any issues of Commission Staff that Hardin District could answer, and (2) time issues for the completion of the transfer. Both Hardin District and Veolia Water, its system's operator, stated they were making commitments and expending funds based upon the transfer.

Staff did have some questions about the tariff provisions filed by Hardin District. It appeared that the tariff sheets filed with the application did not meet the required notice provisions of KRS 278.180. Hardin District was advised that due to the accepted filing date of March 28, 2008, the requested effective date of its tariff, April 13, 2008, was insufficient and that the tariff effective date should be revised to become effective no sooner than April 17, 2008.

Staff requested the status of Hardin District's debt for the League of Cities. Hardin District stated that, while there was some question from bond counsel, there was no real problem for the assumption.

For determination of the possible need for a Certificate of Public Convenience and Necessity, Staff also requested that Hardin District file a list of its planned construction projects for the Radcliff Sewer System that are not yet under construction, stating the cost and method of funding.

Staff stated its opinion that, due to the status of the parties involved in the transfer, Commission approval of the proposed transfer would not be required, but that the debt assumption would require Commission approval.
